HEALTH, SAFETY AND WELFARE POLICY 2012-13

Safety Statement

It is Board of Management policy to provide a safe and healthy work environment for all employees and to meet our duties to students, employees, contractors and visitors. The Board of Management acknowledges its role in protecting the safety, health and welfare of all people employed in the organisation and affected by the workplace. We are committed to implementing safe work systems and methods to ensure the safety, health and welfare of all.

The Board of Management understands its legal obligations and its commitment to comply with the Safety, Health and Welfare at Work Act, 2007, and any other legislation such as the General Applications Regulations 1993 or as required under EU Law.

The Board of Management recognises that its obligations are to provide the following:

- A safe place of work
- Safe systems of work
- Appropriate information and training to ensure safety
- Preparation and revision of emergency plans
- Prevention of risk to health from any activity
- Hygiene facilities as appropriate

The success of this policy will depend on the co-operation of all personnel. It is therefore important that you acquaint yourself with all areas of the Safety Statement. You should ensure that you understand your role and the overall arrangements for health and safety within the school and within your individual department. You should also be aware that you have an obligation to take care of your own safety and that of others who might be affected by your actions.

The Safety Statement will be reviewed by management and the Safety Committee and will be changed as appropriate.

Compliance with the safety statement is the ultimate responsibility of management, who will be supported in this by audits, including individual room audits, carried out by school personnel and evaluation of accident reports and statistics.

Room Audit

The Board of Management recognises the importance of obtaining from all members of staff their full co-operation in ensuring that the highest standards of safety in the workplace are maintained. As part of this ongoing process, a Room Audit will be undertaken at the commencement of each term. Following the return of the relevant form, action, as necessary, will be undertaken by the school management.

Co-operation of Employees

The co-operation of employees in matters relating to Safety, Health and Welfare is of paramount importance in order to have an effective Health and Safety policy. Each employee has a duty to:

- Take reasonable care for his/her own safety, health and welfare and that of any other person who may be affected by his/her acts or omissions while at work
- Co-operate with the Board of Management and any other person to such extent as will enable the Board of Management or the other person to comply with any of the relevant statutory provisions
- Ensure that he/she is not under the influence of an intoxicant so as to endanger his/her own health and safety or that of any person, and submit to any appropriate and reasonable tests for intoxicants as required by the organisation
- Undergo an assessment by a medical practitioner to establish the employee's fitness to perform work activities. If an employee becomes aware that they are suffering from any illness or physical or mental impairment which, in the course of carrying out work activities, could expose the employee or other employees to a health and safety risk, the employee should immediately notify the management or a medical practitioner nominated by the management (who must then inform the employer). Action will then be taken by the management to ensure compliance with the safety legislation
- Not engage in improper conduct or other behaviour that is likely to endanger his/her safety or that of any other person
- Attend such training as may be required to ensure compliance with health and safety legislation
- Adhere to safe lifting methods and use any personal protective equipment, including appliances, equipment or other means or things provided to secure safety, health and welfare at work, in such a manner so as to provide the protection intended
- Report to the Safety Officer without unreasonable delay, any defects in equipment, place of work or system of work, or any other contravention of the statutory provisions which might endanger safety, health and welfare of which you become aware.
- Not interfere with or misuse any appliance or protective clothing or convenience provided for securing safety, health and welfare
- Be aware of the person responsible for safety, health and welfare on the premises
- Have a duty through proper use of work areas and facilities, including toilets, kitchens etc to keep the workplace in a safe, clean and healthy condition for the continued benefit of themselves, colleagues, students, visitors and contractors

- Inform senior management immediately of any injury no matter how minor. An accident report must be completed and returned to the safety officer within 24 hours. Employees are also obliged to inform senior management of any hazard or incident (whether it be a machine or dangerous behaviour on the part of an individual(s)) which may affect their own health and safety or that of any other person. The Safety Officer shall follow up on that information with a view to preventing any similar incidents in the future

Staff are strongly advised not to bring large sums of money or valuable articles to the workplace. Where lockers are provided, staff are required to use them for all personal belongings.
